

JOHN DEERE 7290R AMERICAN V.1 LS13

In this model, there are many new features and functions: animations complete with pulleys, fans, axle, lifters, pistons, cylinders ect. Then the original sounds and special functions and exclusive, such as opening / closing the door from the outside. The sound of the typical fan of this series that is activated after about 3 minutes of play, the setting of realistic model, with real weights and measures and realistic driving behavior, the internal cam also adjustable height with the mouse wheel, the 'reverse driving switchable with the middle mouse button, ect the rest of the features you'll discover

I want to thank in particular Knechti, for the realization of the set of sounds that are the most important thing, in this work.

I want to thank my staff (ModHoster Team): Knechti, Meyer123 and fin050808 for their valuable support!

I hope that my work is to your liking.

Crediti:

The whole mod was created by a new 3D design, through to commissioning game, from me:

Ago-Systemtech Modhoster Team (alias Ago-Modding)

The complete audio was produced by Knechti.
